---

Objective

Seeking challenging opportunities that match my skills and expertise, with a strong focus on learning and growing in the field of Artificial Intelligence. Committed to continuously upskilling and completing any tasks with dedication and excellence.

Professional Experience

ML Engineer – DHL IT Services

Aug 2021 – Present | Chennai, India
Technologies: Docker, Splunk, OpenShift, Teradata, Snowflake, Jenkins, Git, GitHub Actions, Power BI, Dataiku, Vector DB, Airflow, SQL Server, Git Copilot, MLflow

Roles & Responsibilities:

- Designed and implemented **data engineering pipelines** to ingest, transform, and integrate large datasets into analytical workflows.
- Maintained and optimized **codebase** for scalability and performance.
- Developed and deployed **REST APIs** to integrate data services with business applications.
- Created **Streamlit dashboards** for interactive data visualization and reporting.
- Monitored production ML workflows to ensure operational stability.
- **Productionalized ML models** using MLflow and containerized deployments for scalability and reproducibility.
- Optimized SQL queries and ETL workflows, leading to significant performance improvements.

Projects:

- **Reweigh Dashboard (Power BI):** Developed an interactive dashboard for parcel reweighing analysis, improving operational decision-making.

- **Willingness to Pay (WTP):** Built and automated data pipelines to support price sensitivity analysis for optimized pricing strategies.
- **Shipment Type Analytics (STAN):** Developed workflows to classify shipments as **B2B** or **B2C**, improving operational planning.
- **ACS Swing:** Designed workflows to forecast void space in aircraft Unit Load Devices (ULDs), enabling better load utilization.

Key Achievements:

- Reduced infrastructure costs by **optimizing query performance**.
- Achieved significant cost savings by implementing **Pod Autoscaler** in OpenShift.

Associate – Cognizant Technology Solutions Pvt Ltd.

Feb 2018 – Jul 2021 | Chennai, India
Technologies: MS SQL Server, SSIS, SSRS, Power BI, SSAS, Power Pivot

Roles & Responsibilities:

- Designed and maintained ETL workflows using **SSIS** and SQL Server for healthcare domain clients.
- Developed **Power BI, SSRS, and Power Pivot reports** to meet business intelligence needs.
- Migrated analytics code from Netezza to SQL Server, and SQL Server to Impala.
- Automated reporting processes to reduce manual effort and improve accuracy.

Key Achievements:

- **Runner-up** in Molina Hackathon for creating validation reports in Power Pivot, saving 120+ hours/month.
- **Nominated** for Quarterly Performer for automation initiatives.

Skill Set

- **Business Intelligence:** MS SSIS, MS SSRS, MS SSAS, Power BI, Power Pivot
- **Programming:** SQL, Python
- **Databases:** MS SQL Server, Teradata, Snowflake, Vector DB
- **DevOps & Tools:** Docker, OpenShift, Jenkins, Git, GitHub Actions, Dataiku, Splunk, Git Copilot, Airflow, MLflow
- **Others:** Streamlit dashboarding, API development

Academic Qualifications

- **B.E. (Electronics and Instrumentation Engineering)** – Velammal Engineering College, Chennai – 2017 – 7.51 CGPA (Anna University)
- **12th** – Atomic Energy Higher Secondary School, Kalpakkam – 2013 – 92.83% (State Board)
- **10th** – Kendriya Vidyalaya No. 2, Kalpakkam – 2011 – 9.6 CGPA (CBSE)

Declaration

Hereby declare that the above-mentioned information is true to my knowledge and I bear the responsibility for its correctness.
